

TIP APPLICATION

QUINTESSENCE TIP APPLICATION

1. Start with the basic overlay on your natural nails.
2. Carefully buff the shine off the product completely. Hyper-Cleanse the surface to remove dust from buffing.
3. Choose the proper size tips for each finger, It is better to choose a tip that is too large than one that is too small. File the sides of the tip until it fits your nail perfectly.
4. Using your Tip Adhesive, attach tips to all ten nails. Be careful to apply them straight.
5. Cut tips to the desired length, tip cutters work the best. Nail scissors will work just fine.
6. Using a 100-grit file, blend the tip line into the existing product on your nail.
7. Buff the shine off the rest of the tip, using your white buffing block.
8. Hyper-Cleanse the entire surface to remove all the dust.
9. Apply Hyper-Base to entire surface of nail and tip, self level and cure for 1 minute.
10. File edges and sidewalls until perfect
11. Polish as desired.

When you applied and blended the tips correctly, they will look like natural nails.

ENJOY YOUR BEAUTIFUL LONG NEW NAILS!
